Democratic County Convention.

The Democratic Central Committee for Montgomery County, requests the Democracy of the several Wards and Townships, to meet on Saturday, the 29th day of August, 1859, at 2 o'clock in the afternoon, in each township, and in each Ward in the City of Dayton, at 7½ o'clock, P. M., at the usual places of holding elections, and again become a part of the circulating medium of the country, and every man at once feel the benignant result of such a system.

By this process, whenever the money comes into the Treasury, it was put into your banks, hence into the hands of private individuals, and again became a part of the circulating medium of the country, and every man at once felt the benignant result of such a system.

We are all familiar with the old story, but aside from the bankers, we know of no one who has felt this "benignant result of such a system." It is a system similar to that which has already cost the people of Ohio nearly a million of dollars directly, and which has been a vast corrupting power, extending a demoralizing influence throughout the State. It is very true, as Mr. Dennison says, that the money was "put into your banks, hence into the hands of private individuals." The money has been into the hands of private individuals, and is not likely ever to get out. For particulars, examine the Boemelius, Edgerton and Morgan Report. We do not care to enter into an elaborate discussion of this matter. It is a perfectly plain case. The Republican candidate for Governor is wrong in his advocacy of the system of handing the public money over to the banks that it may be placed "in circulation." The people of Ohio have too much common sense to restore the guardianship of the public funds by placing them in the hands of the public, but the idea is there. It is a blessing to all Classes and Constitutions.
